Dear Jane Goodall!  
A very Happy Birthday to  
you!! You have been my  
role model for years. As a  
teacher I did different  
projects with my kids - roots  
and shoots or world peace  
day! However, you have  
always given me hope to  
make the world a little bit  
better. THANK YOU SO  
MUCH!!!!!!

Sorry for my bad English, I tried my best and it comes from my heart....

Wir wünschen Jane alles, alles denkbare Gute zum 88er, wobei wir nicht unterdrücken wollen, dass wir beide in ein paar Wochen auch soweit sein werden und hoffen, das noch zu erleben!

Gottfried und Irmgard Mazal

Happy birthday! May your idea and project help as many as possible people bring to understand that we human beings are only allowed to use the planet as well as all other individuals. God bless you!

Christa Prilhofer

Dear Mrs. Goodall!  
I have been following your activities - your history for many, many years. I'm sixty years old and a teacher for biology (10 -14 year-old-kids). It's so great what you do for chimpanzees and for mankind anyway. Short time ago I listened to a one-hour speech of yours on the Summit of "Pioneers of Change". My heart was filled with joy and gratefulness to know there are people of your kind who act in a good-minded and sustainable way besides all the crisis in our present world. Thank you so much and have a comfortable birthday. All the best from Austria, Robert Kaspret  
PS: The photo shows me as a Birdwatcher in Hungary - birds are my favourite animals (but I like all nature).

All the Best to you, Mrs. Jane  
Goodall, + thank you for your  
lifework!

Hello Jane, I send you lots of energy and cheers for your birthday!! Thank you sooo much for all you have done for our closest relatives on Earth! I suffer from a chronic fatigue syndrome and got retired with 51. Most of the time I need to relax on my sofa holding my smartphone which enables me to communicate with people from all continents for free. This week I developed a project to enable people in refugee camps from all over the world to get a formation about award-winning projects for sustainable development. I hope with this knowledge they are allowed to go back to their homeland to spread the word and make their countries a better place for people and to save the nature of our beautiful planet! All the best and kind regards from Vienna, Monika Leutgeb and Lucky my cat who always finds a way that I get up and play with him and get some exercise! 😊😊

Von Herzen alles Liebe und  
Gute zum Geburtstag! Sie  
sind eine großartige Frau!

Sehr geehrte Frau Dr.  
Goodall! Zu Ihrem  
Geburtstag wünsche ich  
Ihnen alles erdenklich Gute!  
Seit meiner Schulzeit sind Sie  
mein großes Vorbild und der  
Beweis, dass Wissenschaft  
und Menschlichkeit gerade in  
Bezug auf den Umgang mit  
Tieren keine Gegensätze sein  
müssen und dass es möglich  
ist, die Hoffnung nie zu  
verlieren, auch wenn man  
immer wieder mit den  
Widrigkeiten und Gefahren  
für Natur und Umwelt  
konfrontiert wird. Ich  
bewundere Sie sehr, und das  
seit vielen Jahren. Ganz  
herzliche Grüße Margit

Dear Jane,

I have been admiring your perseverance&the infinite energy you've put into protecting chimps&nature! My grandson Soa (born under the sign of monkey) who'll turn 6 on the 7th of April, adores animals of Africa & has accumulated a considerable knowledge about them,would probably be delighted to visit the continent. He has the calendar of the institute in his bedroom. May you have many more healthy & fruitful years to come in a world where more people understand what PEACE means.

Sarah Loh

Dear Dr. Jane Goodall, I was fascinated from your stories ever since I was a child. I wanted to become a young scientist like you. When I got older "in the last minute" I decided that people are as interesting as chimpanzees and became social worker. I work with homeless people for over 20 years now. Even more I was fascinated from you and your live when you started your projects against poverty in the countries of the chimpanzees. You, your stories and the story of your live have always inspired me and always will!

From the inner of my heart I wish you all the best!

Barbara Stuparek-Püller

Dear Jane, first of all I wish you the best of what you can imagine to your 88 th. birthday. But most of all I want to thank you for your living example of dedication and action, of how you were and are able to feel, understand and communicate about our relationship to nature, to animals, plants. That shoes and inspires me what is possible if there is a clear will and dedication. For me, I started do engage myself in helping and accompany Ucrain human beings. Thats what I can do in my very near circle and it feels good to be active to come into the state of service. The same way I try to live my life in deepest possible campanionship to mother earth. Thank s so much again for your beeing!

Ernest Balthasar

Liebe Dr. Jane, von Herzen  
liebe Geburtstagsgrüße an  
Sie. Menschen wie Sie  
schenken mir Hoffnung, dass  
diese Welt ein besserer Ort  
ist, als er es auf den ersten  
Blick zu sein scheint. Wir  
müssen nur wieder genau  
hinsehen, hören und fühlen um  
all die kleinen täglichen  
Wunder und die wundervollen  
lebendigen Wesen dahinter  
zu bemerken.

Vielen Dank für Ihr Wirken  
und Ihr Sein.

Dear Jane, Have a very happy 88th Birthday. We met at your Gala in Kitzbühel most likely the one 10 years ago in 2021. My mom just sent me your "Mr. H" CD I got back then after she emptied out her old flat in Vienna. It was a great honor to meet you. I hope one day I may get a chance to visit one of your projects in Africa, either Tanzania or Uganda, because my wife is from Kenya and we plan to visit the country later this year.

We wish you all the best and good health and hopefully many years to come.

Werner Keil & Betty

Liebe Dr. Jane, Von ganzem Herzen die besten Glückwünsche zu Ihrem 88. Geburtstag! Ich wünsche Ihnen viel Gesundheit, Tatkraft und viele hoffnungsvolle und schöne Erlebnisse im neuen Lebensjahr und darüber hinaus. Danke für Ihre inspirierende und unermüdliche Arbeit für Mensch, Tier und Pflanzenwelt, sowie für die gesamte Erde! Danke auch für Ihre informativen, herzerwärmenden, sowie immer humorvollen Vorträge! Da bin ich besonders froh, dass ich bei Einigen dabei sein konnte. Ein kleines Bild von Ihnen steht bei uns im Wohnzimmer, und immer wenn ich einen Blick darauf werfe, fühle ich mich gestärkt und auch zuversichtlicher, im Hinblick auf die Zukunft unseres schönen Planeten Erde und der Menschheit. (Das ist etwas, was momentan noch wichtiger und wertvoller ist!) Alles Liebe und Gute Gerlinde und Familie

Dear Jane,

“You are not a drop in the ocean; you are the entire ocean in a drop.” It is you, that brings this quote of Rumi into every day life!

Thank you for being the person you are an thanks for inspiring us... stay healthy & all the best!

Big hug,  
Felix

Dear Jane -

we are so glad to share „Mother Earth“ (at the same time „Planet Science“) with you. By studying chimps in their native environment you opened our eyes for recognizing the nature of human behaviour - e.g. as we learned that chimps, these most intelligent animals (judged by human measures) cannot be trained to become housebroken ( in German „Zimmer-rein“), it may be, that the human species, would not become “planet broken“ (in German „planeten-rein“) which would be the ultimate challenge for mankind.

Even some most intelligent specimens of the human race, e.g. Space Engineers, would, at their beginning , not have foreseen Space rubbish to become the most dangerous obstacle to future Space enterprises.

But in the meanwhile, on Earth, your voice is going to be heard and understood among the the youth, having become increasingly aware of your exemplary way as an iconic environmentalist - e.g. in the field of nutrition and animal rights. We embrace you -

Dear Jane - thank You so much,  
cordially Yours.

Bernd
